YP - Day 10 - 03/13/2021

Saturday, January 9, 2021   10:07 PM

Let's start the last project since this class.

1) Show result to the students
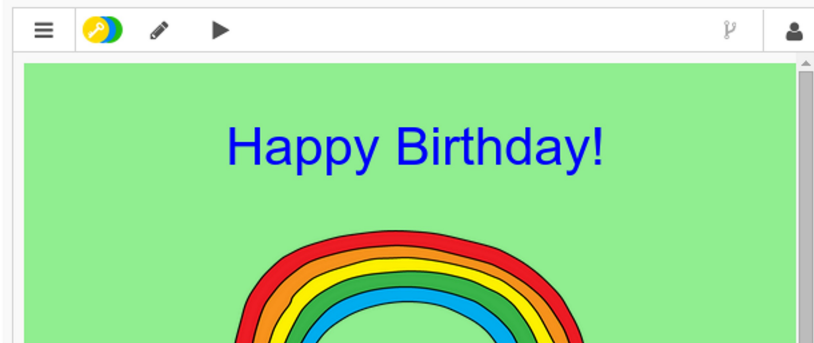

Project Showcase

I've been learning to create web pages with Code Club. I'm using the trinket editor.

1. Happy Birthday
2. Tell a Story
3. Wanted
4. Recipe
5. Mystery Letter

Happy Birthday

The Happy Birthday project.

≡ 🔵 ✏ ▶   ⑂ 👤

Happy Birthday!

2) Start the project

o HTML uses the `<a>` tag for links.

hyperlink tag   link text

`<a href="https://www.codeclub.org.uk">Code Club</a>`

website address

o Find the `<a>` tag in your project.

```
<h1>Project Showcase</h1>
<a href=""></a>
```
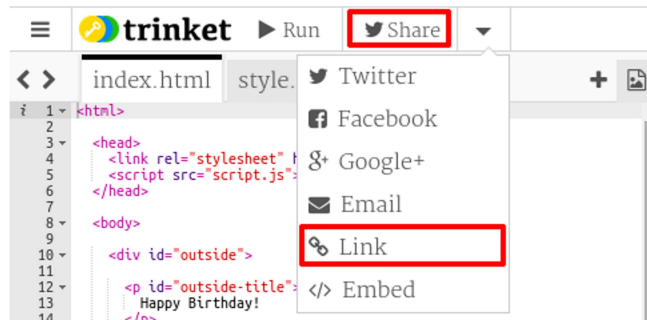

3) Link to A Trinket
You can link to the web page for a trinket.

- Did you keep a link to your Happy Birthday trinket? If you did then open that trinket in another browser tab or window. Otherwise open the finished example trinket:
  https://trinket.io/html/e996dc0380

- Click on the Share menu above your trinket and choose Link:

If you opened the trinket from your account then look for the Share option above your trinket instead:

- Choose 'Only show code or result (let users toggle between them)' and copy the link to the trinket.

4) Challenge: Create a List of Your Projects

Project Showcase

I've been learning to create web pages with Code Club. I'm using the trinket editor.

Happy Birthday

The Happy Birthday project.

Tell a Story

The Tell a Story project.

Wanted

The Wanted project.

Recipe

The Recipe project.

Anonymous Letter

The Anonymous Letter project.

5) Embed the project

■	⟁ Copy	◄ Share	Save	🗑

✉ Email

</> Embed
📕 Publish
⬇ Download

≡ Ins

Birthday!!!!

Embed Your Code!

Embed this code on your site

```
<iframe src="https://trinket.io/embed/html/6add5c356f?toggleCode=true" width="100%" height="600" frameborder="0" marginwidth="0" marginheight="0" allowfullscreen></iframe>
```

Customize

Only show code or output (let users toggle between them)

☐ Show instructions first when loaded

Change the properties and introduce the allowfullscreen
