Last lesson review
- In the last class, we create a new project - Tell the story
- We Add 5-6 sentences with the different pictures
  - Students may not prepare, may be only two, so ask them if they have prepare the story or poem
- We set the title properties
- We set the body properties
- We adjust the image size with width and height
- We add the display, position, overflow, border

This lesson
1. Bolder issue
- When you add a bolder, there is an alert there:
  - So let's remove the width and height, and the content will adapt the border automatically
- Knowledge point
  -

2. Let's change the <p> tag
  - In the last class, I remember that Angie asked me how to change the text size, and we have added one property for <p> tag front-size
  - Add a color for the text : --------------------- color: coral;
  - Add the background color: ------------------- background: white;
  - Add the font family: ----------------------------- font-family: Impact;
  - Add the position: ------------------------------ position: absolute;
  - Add the border
    - border-top: 2px solid black;
    - border-right: 2px solid black;
    - padding: 5px;
    - margin-right: -2px;
